Re: Case 01-F-1276 – TransGas Energy Systems LLC – 1100 MW Steam
and Electric Cogeneration Facility, Brooklyn, New York

Dear Interested Stakeholder:

Enclosed please find for your review and comment the third draft of the proposed study stipulations for the captioned project. This third iteration reflects the comments, and clarifications thereto, received in the past several months from the staffs of the Department of Public Service, Department of Environmental Conservation, Department of Health and Office of Parks, Recreation and Historic Preservation. It also reflects certain comments submitted by the Task Force and the Brooklyn Borough President. As was the case for the draft stipulations included in the Preliminary Scoping Statement filed on September 13, 2001, and the revision thereof, dated December 31, 2001, TransGas Energy Systems, LLC (“TGE”) is providing another opportunity to comment on the draft stipulations. The comments should be submitted to the undersigned no later than March 26, 2002, preferably by e-mail (sml@readlaniado.com), followed with a copy by regular mail, and to Mr. Stephan Solzhenitsyn (Stephan@trcsolutions.com). The enclosed draft shows the changes from the December 31, 2001 draft.

Very truly yours,

READ and LANIADO, LLP
Attorneys for TransGas Energy Systems, LLC
